

MOBILOITTE TECHNOLOGIES

COMPREHENSIVE CORPORATE PROFILE (EXPANDED)

Governed AI. Built for Business.

Enterprise AI Development • Custom Software • Web & Mobile Apps • Blockchain • Cloud Infrastructure • Cybersecurity

1. Executive Summary & Corporate Overview

Mobiloitte is a global enterprise AI and digital engineering company specializing in custom AI development services, generative AI development, AI software development, RAG-based automation, AI agent development, machine learning development, blockchain architecture, cloud-native platforms, cybersecurity, mobile app development, web application development, SaaS development, and enterprise software engineering.

Vision & Mission

Vision: To architect the future of digital advantage by building secure, scalable, and governed AI systems that transform enterprise operations globally.

Mission: To empower global businesses with production-ready AI solutions, enterprise software platforms, cloud-native applications, and intelligent automation workflows that drive measurable ROI from technology strategy to production-ready execution.

2. Workplace Operations, HR Policies & Leadership

2.1 Office Timings & Working Hours

- **Standard Office Hours:** The standard operating window is from 09:30 AM to 06:30 PM.
- **Working Days:** Monday through Friday. The office remains closed on Saturdays and Sundays unless project-specific shifts are mandated.
- **Break Allocations:** A collective lunch break of 45 minutes along with two short 10-minute refreshment intervals daily.
- **Shift Flexibility:** Project-dependent flexible windows are available but must be approved by Delivery Heads via internal attendance software.

2.2 Leave Policies & Time-Off Benefits

- **Earned / Privileged Leaves (EL/PL):** 15 days annually, accumulated proportionally based on monthly service tenures.
- **Casual & Sick Leaves (CL/SL):** 12 days combined per calendar year for personal emergencies or medical recovery.
- **Parental Leave:** Fully compliant statutory maternity and paternity leave frameworks matching regional labor laws.

2.3 Leadership & Engineering Managers

Our enterprise delivery capabilities are spearheaded by experienced domain experts and engineering managers:

- **Ankur Singh** - Head of Cloud Infrastructure & DevOps
- **Tanishka Raina** - Manager, AI Engineering & LLM Integrations
- **Yash Soni** - Manager, Blockchain & Web3 Ecosystems
- **Himani Chaudhary** - Manager, Enterprise Digital Transformation
- **Priya Maurya** - Lead, Customer Experience & AI Automation
- **Akanksha & Avni Chadha** - Leads, CRM Modernization & Revenue Operations

3. Careers & Active Job Openings

Mobiloitte is actively hiring top-tier engineering and design talent to build next-generation enterprise platforms. Current open positions include:

Software Engineer (Frontend)

Department: Engineering & Development | **Experience:** 2 to 4 years

Key Skills: React.js, Vite build tool, JavaScript (ES6+), HTML5, CSS3, and Git/GitHub.

Description: Looking for a Frontend Developer to write clean, modular UI components and optimize Single Page Applications (SPAs) for performance. You will closely work with design layouts and microservices APIs to create highly scalable production frontends.

Product Designer

Department: UI/UX Design Studio | **Experience:** 3+ years

Key Skills: Figma, Adobe XD, Wireframing, User Research, Prototyping.

Description: Turn complex user journeys into highly intuitive, interactive visual interfaces. Build comprehensive wireframes, interactive prototypes, and collaborate directly with engineering managers.

Data Scientist

Department: Artificial Intelligence & Analytics | **Experience:** 1 to 3 years

Key Skills: Python, Machine Learning, NLP, Large Language Models (LLMs), Vector Databases.

Description: Build and integrate intelligent automation pipelines, clean unstructured datasets, work on custom model fine-tuning arrays, and establish vector indexing schemas (RAG) for advanced AI applications.

4. Core Digital Capabilities & Technology Stack

4.1 Enterprise AI, RAG & Automation

- **Agentic AI Systems:** AI agent development, multi-agent orchestration, tool-calling agents, governed AI workflows.
- **RAG Based AI:** Retrieval-Augmented Generation systems, enterprise knowledge assistants, vector search (500-1000 character chunks), document intelligence.
- **Unified AI BOTs:** Managed via the proprietary **ConveriqoAI BOT Platform** for Multi-Channel deployment.

4.2 Software, Cloud & Blockchain

- **Mobile & Web Engineering:** React, Vite, Node.js, Express ecosystems, MongoDB, PostgreSQL.
- **Blockchain & Web3:** Hyperledger, Ethereum, Polygon frameworks, Smart Contracts, DeFi Solutions, and Asset Tokenization.
- **Cloud & Cybersecurity:** Scalable cloud infrastructure, CI/CD automation, DevOps, penetration testing, and zero-trust architecture.

4.3 AI & Automation Tools

- **AI Productivity:** ChatGPT, Claude, Gemini.
- **Workflow Automation:** Zapier AI, n8n, LangChain, CrewAI.
- **AI-Powered Coding:** Cursor AI, GitHub Copilot, Claude Code.

5. Target Industries & Case Studies

Key Industry Verticals:

Healthcare & Diagnostics, BFSI (Banking/Finance), Manufacturing & Supply Chain, Real Estate & PropTech, Retail & E-commerce, Education & EdTech, Government & Smart Cities.

Featured Case Studies:

- **IFFCO Kisan (Agritech):** Empowered 1M+ farmers, resulting in a 30% yield increase.
- **Nesba (PropTech):** Fractional Real Estate Investment Platform with 50k+ active investors.
- **Exobe (E-Commerce):** Handled 10k+ daily transactions with a 45% vendor growth rate.
- **Steve Madden (Retail):** Scaled to 2M+ downloads with 65% user retention.
- **Bitage (Fintech):** Processed \$10M+ in trading volume with 94% bot accuracy.

6. Frequently Asked Questions (FAQs)

Q: What makes Mobiloitte an enterprise AI development company?

A: Mobiloitte specializes in building secure, scalable AI systems tailored for enterprise needs. From generative AI solutions to RAG architectures, we ensure robust compliance, security-by-design, and deep integration with existing enterprise software.

Q: Can Mobiloitte build generative AI applications and AI Agents?

A: Yes, Mobiloitte provides comprehensive Generative AI, RAG chatbot development, and AI agent development services.

Q: What are the office timings?

A: The standard operating hours are from 09:30 AM to 06:30 PM, Monday through Friday.

Q: How does Mobiloitte ensure security for AI solutions?

A: Security is enforced via full-cycle auditing, role-based access control, human-in-the-loop approvals, zero-trust architecture, and data privacy compliance.

Q: Does Mobiloitte build blockchain platforms?

A: Yes, we engineer private, public, and hybrid blockchain architectures, smart contracts, and asset tokenization platforms.
