

MOBILOITTE TECHNOLOGIES

Enterprise Career Catalog & Job Openings Matrix

Governed AI. Built for Business. Explore High-Impact Technical, Engineering, Design, and Management Roles Across Global Delivery Hubs.

Target Audience: Talent Acquisition, Hiring Managers, Global Applicants

Global Delivery Centers: New Delhi (HQ), USA, UK, UAE, Singapore, South Africa

Official Recruitment Contact: hr@mobiloitte.com | Ext: 204

Document Version: 2026.4 (Enterprise Production Ready)

1. Working at Mobiloitte Technologies

Mobiloitte is a premier global enterprise AI and digital engineering company specializing in custom AI development, Generative AI, RAG architectures, Blockchain ecosystems, Cloud-native applications, and Enterprise Mobility. With a global presence across 6 international hubs and over 5,000+ successfully delivered projects, Mobiloitte offers an unparalleled environment for engineers, designers, and tech leaders to innovate at enterprise scale.

1.1 Employee Value Proposition & Culture

- **Governed Innovation:** Direct hands-on experience building cutting-edge Agentic AI, LLM Fine-Tuning pipelines, and secure Web3 ecosystems.
- **Global Operational Footprint:** Cross-functional collaboration with international teams serving Fortune 500 enterprises and high-growth disruptors across 70+ countries.
- **Continuous Professional Development:** Sponsored technical certifications (AWS, Azure, GCP, Kubernetes, Certified Ethical Hacker, Scrum Master) and monthly hackathons.
- **Workplace Flexibility:** Structured hybrid working models, flexible shift windows managed via internal HRMS, and competitive performance incentives.

1.2 Enterprise Hiring Process & Stages

Standard Hiring Workflow (4-5 Business Days SLA):

1. **Stage 1: Profile Screening & Initial HR Connect (30 Mins)** - Evaluation of technical background, communication skills, and compensation alignment.
2. **Stage 2: Technical Evaluation & Live Coding Assessment (60 Mins)** - Hands-on problem-solving, code quality, and framework-specific testing.
3. **Stage 3: System Design & Architecture Round (60 Mins)** - For senior roles: Assessment of scalability, microservices, security, and cloud/database architecture.
4. **Stage 4: Leadership & Culture Fit Interview (30-45 Mins)** - Alignment with Mobiloitte core values, business ethics, and project deployment dynamics.
5. **Stage 5: Official Offer Rollout & Onboarding Verification** - Credential vetting, background check, and seamless HRMS onboarding.

1.3 Executive Job Opening Summary Matrix

Job Title	Dept. / Domain	Experience	Location / Mode	Annual Salary Band
Senior AI/ML & RAG Engineer	AI & Analytics Lab	3 - 6 Years	New Delhi / Hybrid	₹18,000,000 - ₹28,000,000 / \$85,000 - \$120,000
Frontend Developer (React / Vite)	Engineering & Dev	2 - 4 Years	New Delhi / On-site	₹8,000,000 - ₹14,000,000 / \$50,000 - \$75,000
Blockchain & Smart Contract Engineer	Web3 Division	3 - 5 Years	New Delhi / Remote	₹16,000,000 - ₹25,000,000 / \$80,000 - \$115,000
Product Designer (UI/UX)	UI/UX Design Studio	3+ Years	New Delhi / Hybrid	₹9,000,000 - ₹15,000,000 / \$55,000 - \$80,000
Cloud & DevOps Lead	Cloud & Infrastructure	5 - 8 Years	New Delhi / Hybrid	₹20,000,000 - ₹32,000,000 / \$95,000 - \$135,000

Job Title	Dept. / Domain	Experience	Location / Mode	Annual Salary Band
Data Scientist (LLMs & Analytics)	AI & Analytics Lab	1 - 3 Years	New Delhi / On-site	₹7,500,000 - ₹12,000,000 / \$45,000 - \$65,000
Mobile App Developer (Flutter/ Native)	Mobile Engineering	2 - 5 Years	New Delhi / On-site	₹8,500,000 - ₹16,000,000 / \$50,000 - \$80,000
Cybersecurity & VAPT Lead Auditor	Security Division	4 - 7 Years	New Delhi / Hybrid	₹18,000,000 - ₹27,000,000 / \$85,000 - \$125,000
Enterprise Business Development Mgr	Sales & Growth	4 - 8 Years	New Delhi / USA / UK	₹12,000,000 - ₹22,000,000 + Uncapped OTE

2. Detailed Technical & Engineering Job Profiles

Senior AI/ML & RAG Systems Engineer

JOB CODE: MOB-AI-01

Department: AI & Analytics Division

Experience: 3 - 6 Years

Salary Band: ₹18.0 LPA - ₹28.0 LPA (\$85,000 - \$120,000 USD for US/Global)

Work Mode: Hybrid / On-site (New Delhi)

Education: B.Tech / M.Tech in CS, AI, or Data Science

Variable Pay: Up to 15% Annual Performance Bonus

Role Overview: Architect and deploy production-ready Retrieval-Augmented Generation (RAG) applications, Agentic AI frameworks, and custom LLM integration workflows for enterprise clients. You will build vector search indexes, implement tool-calling AI agents, and enforce strict governance guardrails.

Key Skills Required:

PythonLangChainCrewAILlamaIndexPinecone/ChromaDBOpenAI APIClaude APIPyTorchFastAPIDocker

Key Responsibilities:

- Design end-to-end RAG pipelines using text chunking schemas (500-1000 characters) with 10-20% contextual overlap for dense embedding accuracy.
- Develop multi-agent orchestration workflows utilizing CrewAI and LangChain for automated business processes.
- Fine-tune open-source models (Llama 3, Mistral) for domain-specific regulated enterprise workflows (BFSI, Healthcare).
- Integrate proprietary ConveriqoAI BOT Platform API gateways with enterprise CRM/ERP systems.

Software Engineer - Frontend Development (React / Vite)

JOB CODE: MOB-ENG-02

Department: Engineering & Development

Experience: 2 - 4 Years

Salary Band: ₹8.0 LPA - ₹14.0 LPA (\$50,000 - \$75,000 USD)

Work Mode: On-site (D-115 Okhla Phase-1, New Delhi)

Education: B.E. / B.Tech / MCA in Computer Science

Variable Pay: Performance Quarterly Incentive

Role Overview: Write clean, modular, independent Single Page Application (SPA) components. You will compile high-performance visual interfaces using React.js and Vite, matching backend microservices REST/GraphQL APIs with zero-latency visual workflows.

Key Skills Required:

React.js Vite TypeScript JavaScript (ES6+) Redux Toolkit Tailwind CSS HTML5/CSS3
Git/GitHub REST APIs

Key Responsibilities:

- Develop responsive SPAs and PWA web interfaces compiled natively via Vite for sub-second asset bundle load times.
- Optimize frontend state management and API caching using Redux Toolkit and React Query.
- Work closely with Product Designers (Figma) and Backend teams to ensure seamless microservice API integration.
- Enforce web accessibility (WCAG), cross-browser compatibility, and sub-millisecond DOM rendering speeds.

Blockchain & Smart Contract Lead Developer

JOB CODE: MOB-W3-03

Department: Blockchain & Web3 Division

Experience: 3 - 5 Years

Salary Band: ₹16.0 LPA - ₹25.0 LPA (\$80,000 - \$115,000 USD)

Work Mode: Hybrid / Remote Option

Education: B.Tech / M.Tech in CS or Software Engineering

Variable Pay: Tokenomics Project Milestones Bonus

Role Overview: Architect secure public, private, and permissioned consortium blockchain networks. You will engineer audited smart contracts in Solidity and Rust, build multi-chain crypto wallets, and deploy Real-World Asset (RWA) tokenization platforms.

Key Skills Required:

Solidity Rust Hyperledger Fabric Ethereum Polygon Web3.js/Ethers.js Hardhat/Foundry
Smart Contract VAPT

Key Responsibilities:

- Write, test, and deploy production EVM smart contracts on Ethereum, Polygon, and Solana platforms.
- Design permissioned enterprise blockchains using Hyperledger Fabric for supply chain and trade finance clients.
- Conduct Vulnerability Assessment and Penetration Testing (VAPT) on smart contracts to prevent reentrancy and exploit risks.
- Integrate decentralized identity (DID), custody management, and automated DeFi liquidity protocols.

2. Detailed Technical & Engineering Job Profiles (Cont.)

Product Designer (UI/UX Specialist)

JOB CODE: MOB-DES-04

Department: UI/UX Design Studio

Experience: 3+ Years

Salary Band: ₹9.0 LPA - ₹15.0 LPA (\$55,000 - \$80,000 USD)

Work Mode: Hybrid / On-site (New Delhi)

Education: B.Des / M.Des / B.Tech or equivalent portfolio

Variable Pay: Project Completion Performance Incentive

Role Overview: Translate complex behavioral user journeys into intuitive, elegant visual interface designs. You will construct design systems, interactive prototypes, wireframes, and collaborate directly with Engineering Managers to audit asset constraints.

Key Skills Required:

Figma

Adobe XD

Wireframing

User Research

Prototyping

Design Systems

User Journey Mapping

Micro-interactions

Key Responsibilities:

- Build comprehensive end-to-end user flows, wireframes, and high-fidelity interactive prototypes in Figma.
- Maintain and scale Mobiloitte's corporate design language system and reusable UI component libraries.
- Conduct qualitative user research, usability testing, and accessibility audits (A11y).
- Collaborate with frontend developers to ensure 100% pixel-perfect implementation of UI designs.

Cloud Infrastructure & DevOps Lead

JOB CODE: MOB-CLOUD-05

Department: Cloud & DevOps Engineering

Experience: 5 - 8 Years

Salary Band: ₹20.0 LPA - ₹32.0 LPA (\$95,000 - \$135,000 USD)

Work Mode: Hybrid / On-site

Education: B.Tech in CS / IT / Cloud Certifications Required

Variable Pay: Up to 15% Annual Uptime & Efficiency Bonus

Role Overview: Architect, secure, and manage global serverless architectures, multi-region cloud deployment failovers, and continuous CI/CD pipelines across AWS, Azure, and GCP. You will lead Infrastructure as Code (IaC) initiatives and zero-trust security postures.

Key Skills Required:

AWS Azure Kubernetes (EKS) Docker Terraform GitHub Actions Jenkins Prometheus/Grafana MLOps

Key Responsibilities:

- Architect highly available, auto-scaling cloud foundations on AWS/Azure supporting millions of active API hits.
- Build automated CI/CD pipelines via GitHub Actions and Terraform for zero-downtime deployment.
- Enforce container security, zero-trust network configurations, and cost-optimization monitoring (FinOps).
- Establish MLOps CI/CD pipelines for continuous machine learning model training and inference monitoring.

Data Scientist (AI & Machine Learning)

JOB CODE: MOB-DS-06

Department: Artificial Intelligence & Analytics

Experience: 1 - 3 Years

Salary Band: ₹7.5 LPA - ₹12.0 LPA (\$45,000 - \$65,000 USD)

Work Mode: On-site (New Delhi)

Education: B.Tech / M.Sc / M.Tech in CS, Stats, or AI

Variable Pay: Project Performance Incentives

Role Overview: Build intelligent automation pipelines, clean unstructured corporate datasets, fine-tune open-source LLM arrays, and establish vector indexing schemas (RAG) for enterprise AI projects.

Key Skills Required:

Python TensorFlow PyTorch NLP Scikit-Learn Vector DBs Pandas/NumPy BERT/LLMs SQL/NoSQL

Key Responsibilities:

- Parse, clean, and vectorize massive unstructured corporate document sets for enterprise RAG assistants.
- Train predictive ML models for financial risk, fraud detection, and agritech yield optimization.
- Evaluate model accuracy, latency, and hallucination rates using standard NLP metrics.

2. Detailed Technical & Management Job Profiles (Cont.)

Mobile Application Developer (Flutter / React Native)

JOB CODE: MOB-MOB-07

Department: Mobile Product Engineering

Experience: 2 - 5 Years

Salary Band: ₹8.5 LPA - ₹16.0 LPA (\$50,000 - \$80,000 USD)

Work Mode: On-site (New Delhi)

Education: B.E. / B.Tech / MCA in Computer Science

Variable Pay: Quarterly App Store Launch Incentive

Role Overview: Engineer cross-platform mobile apps using Flutter or React Native alongside native Swift/Kotlin modules. You will build offline-first sync workflows, integrate IoT BLE communication, and publish apps supporting millions of active downloads.

Key Skills Required:

Flutter Dart React Native Swift Kotlin REST APIs SQLite/Hive BLE Protocols
App Store/Play Store Deployment

Key Responsibilities:

- Build high-performance, responsive cross-platform iOS/Android apps with smooth 60fps UI animations.
- Implement secure offline-first local caching and seamless background data synchronization.
- Integrate hardware SDKs, push notifications, payment gateways, and biometric authentication APIs.

Enterprise Business Development Manager (IT Services / SaaS)

JOB CODE: MOB-SALES-08

Department: Sales & Global Business Growth

Experience: 4 - 8 Years

Salary Band: ₹12.0 LPA - ₹22.0 LPA + Uncapped High-Margin Commissions

Work Mode: On-site / Hybrid (New Delhi / US / UK)

Education: MBA in Sales/Marketing or B.Tech + MBA

Commission Structure: 3% - 7% of Total Contract Value (TCV)

Role Overview: Drive enterprise sales, client acquisition, and solution-led consultations for custom AI, Web3, Mobile, and Cloud engineering services across North America, Europe, Middle East, and APAC regions.

Key Skills Required:

B2B Enterprise Sales IT Consultative Selling RFP/RFI Proposals Client Acquisition
HubSpot/Salesforce Contract Negotiation

Key Responsibilities:

- Identify and qualify enterprise opportunities in AI development, digital transformation, and custom software.
- Lead technical presentation discovery calls, scope pilot proposals, and negotiate contracts with C-suite executives.
- Achieve quarterly regional revenue targets while maintaining high account retention rates.

3. Enterprise Employee Compensation & Benefits Package

Mobiloitte offers a comprehensive, highly competitive benefits package designed to support financial growth, career advancement, and personal well-being:

Benefit Category	Enterprise Provision & Details
Health & Wellness Insurance	Comprehensive Group Medical Health Insurance covering employee, spouse, and up to 2 children. Includes maternity benefits and OPD allowances.
Paid Time Off (PTO)	• Earned / Privileged Leaves (EL/PL): 15 Days annually accumulated monthly. • Casual & Sick Leaves (CL/SL): 12 Days combined annually for emergencies/medical. • Statutory Parental Leave: Full paid Maternity and Paternity leave matching local laws.
Performance Incentives	Quarterly performance bonuses, annual appraisal cycles (10%-25% based on KPI metrics), and project completion milestone rewards.
Upskilling & Certifications	100% company-sponsored technical certification reimbursement for AWS, Azure, GCP, Kubernetes, Certified Ethical Hacker, and Scrum Alliance.
Workplace Flexibility	Project-dependent flexible working hours managed via internal HRMS, hybrid options, and ergonomic office setups.
Employee Referral Bonus	Lucrative referral rewards ranging from ₹15,000 to ₹75,000 depending on the level and domain of the successfully onboarded candidate.

3.1 How to Apply & Recruitment Contact Information

Application Submission Channels:

Interested candidates meeting the specific role criteria are invited to submit their updated Resume, GitHub/Portfolio links, and Current CTC details through any of the following channels:

- **Direct Email Application:** Send your resume to hr@mobiloitte.com (Mention the **Job Code** in the subject line).
- **HR Helplines & Verification:** +91-9999525801 | Extension Line: 204
- **Official Career Portal:** Apply online at www.mobiloitte.com/careers
- **Corporate Office Address (Walk-in / In-Person Interviews):**
Mobiloitte Technologies India Private Limited, D-115, Okhla Phase-1, New Delhi - 110020, India.
